Steve Trabilsy Continues Support for PEI Education/Convention Committee

“I am a strong supporter of the Petroleum Equipment Institute (PEI)”, says Steve Trabilsy, President of Accurate Tank. “They are the leading authority for the petroleum and energy handling equipment industry and supporting their programs is a contribution I enjoy making; it’s a win/win scenario”.

Steve has been tapped by PEI to continue his service as a member of the Education/Convention Committee. This committee is responsible for planning seminars, surveys, industry manuals, convention sessions, and other educational programs for PEI members. Additionally, the committee makes recommendations to the PEI Board of Directors and staff regarding the PEI convention.

Steve Trabilsy was the Committee Chair in 2010.
